

## OUR STORY

We're a small but mighty (and growing) fully licensed and insured, independently owned and locally operated company based out of St. Jacobs Ontario. The owner Ray Bowman started the business as a natural extension to his commercial logging company which he also founded and still manages today.

From a young age, Ray has had a passion and fascination for all things to do with nature and trees including trying to conquer any tree that looked unclimbable! While not always a wise decision, after many bumps and bruises, he knew that when he became a "big boy" he wanted to work in the forestry industry. So at the young age of 16 he took his 1st job in a sawmill, then a commercial logging company which then led him to have his 1st "entrepreneurial seizure" starting his own commercial logging business years after.

Ray's passion and respect for trees, entrepreneurial experience and commitment to service excellence resulted in a simple, honest, ethical management style and hardworking values that are the uncompromising foundation to the business.

## Our Customers Have Spoken! Check Out Our Google Reviews!

“The guys did a great job. They cleaned up the property well when they finished the days work. They obviously have great experience doing this work as the trees all look very natural with all the pruning. I would recommend them if you want a first-rate job.” — Jan Omand, Kitchener

“Ray was always available by phone to answer questions about our job, was quick to quote, and his crew was exceptionally professional and respectful on the job site. We would highly recommend Rayzor's Edge for their pricing, customer service, and workmanship!” — Sheldon Pereira, Waterloo

# WHAT MAKES US SO UNIQUE?

Simply put... it's because our team is committed to and passionate about two things: healthy trees and satisfied customers.

What sets us apart is more than our affordable pricing, our stellar reputation, our experience, our modern equipment, our reliability, our commitment to safety 1<sup>st</sup> and our exceptional work quality... it's our core philosophy and commitment to provide a service that benefits our customers, contractors and the environment.

We continuously work hard to earn the reputation of being the best, all round tree care service business in the Kitchener, Waterloo, Cambridge, Guelph and surrounding areas.

“ Highly recommended. They just removed a big spruce for us in a challenging spot (lots of potential for damage if done wrong). Outstanding, perfect job!! Professional in every way, totally polite and they left site nice and clean. All for a very competitive price.” — P. C., Waterloo

## WHY CHOOSE US?

We DELIVER on our promises... without exception!

We ENSURE every residential or commercial project we take-on is done at a competitive rate while upholding top quality standards

We LISTEN to and work side-by-side with each customer every step of the way starting from our quoting the project all the way through to its 100% satisfied completion.

We're a TEAM of hand-picked, trained and qualified technicians that are trained in the art of rigging and climbing and practice the most current and safest arboriculture techniques.

We ALWAYS leave the work site clean of debris, so it looks immediately presentable.

We NEVER add any hidden or un-agreed upon charges—EVER! The initial quote will be the all-inclusive end price (providing the job doesn't change).

### Trade Subcontracting

We are all for establishing healthy, mutually beneficial business relationships. If you would like to discuss how we can bring value to your business, customers through referrals and/or subcontracting we're all ears!

Servicing the Kitchener, Waterloo, Cambridge, Guelph and surrounding areas

“ Great service! Quote was very reasonable and the two men that came out to do our tree trimming were polite, professional and seemed to be taking wise safety precautions throughout. I'm very happy with Rayzor Edge Tree Service and would definitely recommend them!” — April Mather, Kitchener

*Impressive! They were so friendly and so professional. We had a huge, I mean huge tree sitting close between two homes. To me, that was quite daunting to cut down. They just looked and immediately cut it down without any damage whatsoever. I highly recommend them; you will have no regret to hire them.”*  
— Suzan Graham, Cambridge
